

Church Mowing Guidelines

Average time to mow everything is 1.5 hours

The only two mowers we use are a push mower, for around the church, and the rider mower.

The SNAPPER push mower uses UNMIXED fuel and the Lawn Boy uses MIXED fuel. The gas containers should be marked. If not, the mixed fuel will be darker and less clear. There should be 2 containers of gas. If they are empty fill them up and turn a receipt into the office and you will be reimbursed or call Brad Morris and let him know. If you have to mix fuel for the blower or edger the mixture is 50:1 or 2.65 oz of oil to one gallon of gas.

The Lawn boy is 40:1 and you would use 2.25 oz of oil per gal of gas

Areas to mow:

All grass around the church building (green area on the mowing chart)

All grass across Minnesota and across Williston and around the parking lot. (See Mowing Chart – The yellow area)

If you have any problems with the mowers or discover something might be wrong and needs to be looked at please let the Church Office or Brad Morris know of it.

If you find any problems with the areas to be mowed let us know.

The edger and blower are kept in the back of the church garage. We want them to stay back there so that if someone is walking by, they won't see them and possibly carry them off. When you are finished mowing and it needs trimming go ahead and also blow walks off when finished.

If you see a need to trim any bushes or flower beds please contact the church office first. We have a gardening team that takes care of that)

Before applying any fertilizer or weed killer to the church lawn please contact the church office or Brad Morris.

1. Before turning on the key, Press in on the brake (1). Pull out the choke (6) and turn key clear over to the right until motor starts)
2. Starting instructions are located on the floor between your feet (2)
3. To go forward or Reverse, press on the top or bottom of these pedals (5)
4. Start and stop the blades pull and push this lever (3). NOTE: when you put it in REVERSE it will automatically disengage the blades and you will have to restart the blades. Also, if you get off the seat the tractor will shut off.

MOWING AREA

All grass around the church (green) should be done with the self-propelled Lawn Boy mower.

All areas across Williston and Minnesota should be done with the rider mower. (See operator instructions to start and operate the rider.)
